

# WinterWhimsy

*A Festive Holiday Web*

## Objective:

- Create a vibrant holiday-themed web application named WinterWhimsy using Solidity smart contracts and interactive frontend components.
- Enable users to connect their MetaMask wallets and submit holiday messages stored on the blockchain.

# Key Technologies

- Smart Contracts: Solidity
- Frontend: HTML, CSS, JavaScript
- Blockchain: MetaMask Wallet Integration
- Color Theme: Red, Pink, Blue

# Features of WinterWhimsy

- Red, Pink, and Blue Color Theme
- 3D Snowflake Animation
- MetaMask Wallet Integration
- User-Friendly UI/UX Design

# Frontend and Backend Components

- HTML Structure:
- Interactive forms
- Display of messages using vibrant card styles
- JavaScript:
- Handles MetaMask wallet integration for smart contract interaction

# Conclusion

Successfully built WinterWhimsy, a festive holiday-themed web application featuring a vibrant color scheme and innovative 3D snowflake animation, utilizing blockchain technology for decentralized messaging.
